In this day and age the man who waits for business to come to him is in for a disappointment. Business people over the country have found this more true in recent years.

> It is up to the man who wants business to go after it — and there is no better medium than to advertise. As time rolls on it is more noticeable that people are seeking bargains in all purchases.

Business firms everywhere have proved that business can and does keep up by consistent and persistent advertising and sales effort. But it must be consistent, and values must be kept high.

They were written by the hand of James Mitchell, president of Alabama Power Company from 1912 until his death in 1920. The use to which the phrases were to be put is unimportant. Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxle impurities. The act of living—livis itself—is constantly producing waste matter the kidneys must remove from the blood if good heath is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, putliness under the eyes—feel tired, nervous, all worn out.

Dear Mr. Dunn:

ERA:ffj

We take the opportunity at this, the end of your first year's activities, to express to you and the other members of the Brewers and Alabama Beer Distributors Committee the appreciation of the Alcoholic Beverage Control Board for your committee's fine co-operation with our Board in eliminating retail beer outlets where objectionable conditions were found to exist and in bringing about the orderly conditions which we all desire. We feel that your committee has done a most constructive job and we sincerely hope that you will continue your efforts along the same lines during the coming year.

Yours very truly,

Erlon allingth E. Roy Albright,

We think that's a fine thing for the Board to tell us. Consequently, we would like to assure the Board and the public that our program is permanent. We'll say it this way:

We are going right ahead in 1940.
